

BioDox™

CONCENTRATED LIQUID STERILIZER

Organic
Compliant

Controls biofilm,
botrytis, fungus, mold,
and other harmful
agricultural pathogens -
with no toxic residue

Net 1 quart (32 fl oz)
Yields 64 quarts of
ready to use solution

Ingredients:
Chlorine Dioxide (ClO₂)
Inert ingredient (Water)

00.4%
99.6%

CAUTION / CUIDADO

Keep out of reach of children.
Mantener fuera del alcance de los niños.

FIRST AID

Do not smell or inhale. Avoid contact with eyes or clothing. Causes moderate eye irritation. Harmful if swallowed or inhaled.

Call poison control (1-800-222-1222) or doctor for treatment.

In eyes – Holding eyes open, rinse slowly and gently with water. Remove contact lenses if present after five minutes, then continue rinsing.

On skin or clothing – Remove contaminated clothing. Rinse skin with plenty of water.

If swallowed – Have person sip a glass of water if able to swallow. Do not induce vomiting unless directed by poison control or doctor.

STORAGE

To prevent deterioration or dissipation, store in a cool dark place away from direct heat or sunlight and reclose cap tightly after use. Refrigerate between uses to extend shelf life. If spilled, rinse area with water.

DISPOSAL

Dilute unused product with water and discard in a sanitary sewer, flushing with water to prevent corrosion. BioDox™ will not damage septic or wastewater systems. Contains no phosphorus.

BioCentric
Solutions

BioDox™ conforms to FIFRA Regulation 152.6 and CDPR Section 25(b).

PREPARE FRESH SOLUTION DAILY. APPLY AS DIRECTED.

This bottle contains 4,000 ppm (parts per million) of available chlorine dioxide (ClO₂). One quart of BioDox™ makes 64 quarts of >50 ppm solution. This product degrades over time, accelerated by exposure to light, air, or heat.

To treat crops including leaves, stocks, and flowers:

- Dilute 2 oz or 60 ml BioDox™ per gallon of water.
- Add concentrate to water inside foliar tank and spray directly on plants at every stage of growth or harvest. Keep unprotected persons out of treated areas until sprays have dried.

To clean hard, non-porous surfaces including walls, floors, storage fixtures, tools, equipment, and vehicles:

- Dilute 1/2 oz or 15 ml BioDox™ per 32 oz spray bottle of water.
- Pre-wash surfaces to remove dirt or grime. Apply mixture and allow to air dry.

To kill biofilm:

- Dilute 1 quart (.95 liters) of BioDox™ per 128 quarts or 32 gallons of water.
- Dose into irrigation water tanks, reservoirs, pipes, and tubing.

To kill biofilm in soil and soil alternative media:

- Dilute 1 quart (.95 liters) of BioDox™ per 128 quarts or 32 gallons of water.
- Saturate soil and/or media with solution and allow to air dry.

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. Do not use this product full strength. Always follow directions and dilute appropriately. Wear protective equipment such as gloves and safety glasses. Avoid breathing vapors. Vacate poorly ventilated places as soon as possible. Do not return until strong odors have dissipated. Read all instructions before use. Find out more at www.biocentric.solutions
