

An Ounce of Prevention is Worth a Pound of Cure

All farmers know that effective pest management leads to greater outcomes and higher yields

Did you know that Biofilm contributes to most agricultural pathogens by providing protection and a food source for harmful pests to thrive. Biodox destroys biofilm and the toughest-to-kill pathogens without toxic residue or side effects. Side benefits may include increased terpene production, improved shelf-life, and increased yields per square foot.

Solve your problems, not just your symptoms
with Biodox Liquid Sterilizer.

Sterilizers
Kill 99.9999% of Pathogens

Disinfectants

Like Alcohol & H2O2

Kill 99.99%

Sanitizers

& Most Biocides

Kill 99%

Seed to Sale Crop Protection

BioDox™ is an effective and versatile sterilizer that controls biofilm, botrytis, mold and powdery mildew, in every step and area of your agricultural operation.

BioDox™ leaves no toxic residue, does not need to be rinsed, and presents low risk to high value speciality crops.

BioDox™ does not negatively impact smell, taste, or testing and can be used to neutralize unwanted odors such as smoke, mold or sulfur.

Protect your crop, your workers, your farm and the planet with BioDox™.

There's NO Comparison
